3.5 Quick Reference — Admin	18

Part 4 — Customer Website

auntsallyslaundry.com

4.1 Overview & Features	19
4.2 Services & Pricing Reference	19

Before You Start

This manual covers all three apps: the **POS App** (for branch staff), the **Driver App** (for delivery drivers), and the **Admin Dashboard** (for managers). Each part is color-coded and self-contained — read only the section that applies to your role.

PART 1

POS App

For Branch Staff — Creating orders, managing the queue, and processing payments

1.1 Logging In & Selecting Your Branch

1

Open the POS App

Go to the POS URL on your tablet or computer browser. Bookmark it so you can find it easily.

2

Enter Your Email & Password

Type your assigned email address and password, then tap **Login**.

3

Select Your Branch

On the Branch Select screen, tap your branch name. This sets your working branch for the session.

4

You're In!

Staff are taken to the **Order Queue**.
Drivers go to the **Driver Dashboard**.
Admins go to the **Admin Dashboard**.

**Tip**

Always make sure you've selected the correct branch before creating orders.

1.2 Creating a New Order

— SCREEN · NEW ORDER — POS APP

1 Choose Services from the Left Panel

The left sidebar has three tabs: **Laundry service**, **Dryclean/Toys**, and **Add ons**. Tap a colored tile to add a service. Tap again to add more — a red number badge shows the quantity selected.

2 Adjust Quantities in the Order Summary

The right panel shows your Order Summary. Use the **+** and **−** buttons to change quantities. Tap **x** to remove an item entirely.

3 Add a Custom Service (Optional)

Tap the dark gray **Custom Service** tile (dashed border) to enter any service not listed — type a name and a price.

Tip — Service Tabs

Laundry service has your main wash services. Dryclean/Toys has dry cleaning. Add ons has extras like delivery or express handling.

1.3 Adding Customers & Applying Discounts

Adding a Customer

- 1 Tap "Add Customer"**
Located at the top of the Order Summary panel.
- 2 Search or Create**
Type the customer's phone number or name to search. If they're new, tap **Create New Customer**.
- 3 Fill In Details**
First name is required. Last name and phone number are optional but help for future lookups.

Reminder

If the customer already exists in the system, always search first to avoid duplicates.

Applying a Discount

- 1 Tap "Discount"**
Found in the bottom action bar of the Order Summary.
- 2 Choose Discount Type**
Select either **Peso Amount** (e.g., ₱50 off) or **Percentage** (e.g., 10% off).
- 3 Enter the Value & Confirm**
The discount is shown in the Order Summary and deducted from the total.

Caution

Discounts cannot be changed after the order is placed. Double-check before tapping Place Order.

1.4 Payment & Receipt

Accepting Payment

1 Select Payment Method

Tap the payment dropdown in the bottom bar. Choose from: **Cash**, **GCash**, **Maya**, **Card**, or **Bank Transfer**.

2 Review the Total

Check that the total is correct including any discounts before proceeding.

3 Tap "Place Order"

The big teal button at the bottom. This creates the order and opens the receipt screen.

Payment Methods

- Cash — physical payment
- GCash — e-wallet transfer
- Maya — e-wallet transfer
- Card — debit or credit
- Bank Transfer — direct bank

Queue Features

- Auto-refreshes every 15 seconds — no need to reload
- Filter tabs narrow down which orders you see
- Each card shows order number, customer, services, total, time, and paid status
- Tap **Details** to open the full order view

Advancing an Order

- Pending → tap **Confirm**
- Confirmed → tap **Start Processing**
- Processing → tap **Mark Ready**
- Ready → tap **Complete**

1.6 Order Status Flow

Every order moves through these stages. You advance the status from the Order Queue using the button on each order card.

Status	What It Means	Who Does It	Button Label
PENDING	Order just created, awaiting confirmation	Auto — when order is placed	—
CONFIRMED	Branch has acknowledged the order	Branch Staff	Confirm
PROCESSING	Laundry is being washed/dried/pressed	Branch Staff	Start Processing
READY	Laundry is done, packed and ready	Branch Staff	Mark Ready
OUT FOR DELIVERY	Driver picked up and is en route	Driver (via Driver App)	—
COMPLETED	Order delivered or picked up	Driver or Staff	Complete / Mark Delivered

Order History

— Once an order is completed, it moves to Order History. You can access it from the sidebar to view past orders beyond today.

Analytics

is also available in the sidebar for basic revenue and order stats.

1.7 Quick Reference — POS App

POS Quick Reference Card

Login

Email + Password → Select Branch → You're in

Add Customer

Search by phone/name → or create new (first name required)

Payment Methods

Cash · GCash · Maya · Card · Bank Transfer

Status Flow

Pending → Confirmed → Processing → Ready → Completed

New Order

Tap colored tiles → Adjust qty in Order Summary → Place Order

Discount

Tap Discount → Peso or % → Enter value → Applies to total

Order Queue

Today's orders · Filter by status · Auto-refreshes every 15s

Custom Service

Dark gray dashed tile → Enter name + price → Add to order

Things to Remember

— Always select your correct branch after login. Discounts cannot be changed after placing an order. Search for existing customers before creating new ones.

PART 2

Driver App

For Delivery Drivers — Viewing assigned orders, GPS tracking, and marking deliveries complete

2.1 Logging In

**Same URL as POS**

— Go to the same POS web address on your phone. When you log in with a driver account, the system automatically takes you to the Driver Dashboard. No separate app to download.

1 Open the URL on Your Phone

Go to the POS URL in your phone's browser. Save it as a bookmark on your home screen for quick access.

2 Enter Your Driver Email & Password

Use the email and password given to you by your manager. Tap **Login**.

3 You're Taken to the Driver Dashboard

As a driver, you skip the Branch Select screen and go straight to your delivery list.

2.2 Viewing Your Assigned Orders & GPS Tracking

— SCREEN · DRIVER DASHBOARD

**Enabling GPS Tracking****1 Tap "Start Tracking" (top right)**

The button is in the top-right corner of your Driver Dashboard.

2 Allow Location Access

Your browser may ask for permission. Tap **Allow** to enable GPS sharing.

Button Turns Green

When tracking is on, the button turns green and shows . Your location is sent every 10 seconds.

Keep Tracking On

— Always enable tracking when you're out for deliveries. This helps the manager and customer know your location.

Dashboard Features

- Shows all orders assigned to you
- **NEW** badge appears on orders assigned within the last 5 minutes
- Refreshes automatically every 30 seconds
- Tap any order card to open delivery details

2.4 Completing a Delivery

1 Tap the Order Card

From the Driver Dashboard, tap the order you are about to deliver to open the Delivery Detail screen.

2 Review Customer Info

The screen shows the customer's name, phone number (tap to call directly), and any delivery notes.

3 Check the Map Pin

A map shows the customer's delivery address. Use it to navigate.

4 Hand Over the Laundry

When you have given the laundry to the customer, tap the green **Mark as Delivered** button.

5 Tap "Back to Dashboard"

A confirmation screen appears. Tap **Back to Dashboard** to return to your delivery list.

Calling the Customer

— On the delivery detail screen, the customer's phone number is a tap-to-call link. Tap it to call them directly from your phone.

— SCREEN · ORDER DELIVERY DETAIL

2.5 Quick Reference — Driver App

Driver Quick Reference Card

Login

Same URL as POS → driver account auto-redirects to Driver Dashboard

View Orders

Dashboard shows all assigned deliveries ·
NEW badge = assigned in last 5 min

Complete Delivery

Hand over laundry → Tap green "Mark as
Delivered" → Back to Dashboard

Start Tracking

Tap "Start Tracking" (top right) → Allow
location → Button turns green

Call Customer

Tap the phone number on the Delivery Detail
screen to call directly

Auto-refresh

Dashboard updates every 30 seconds
automatically

PART 3

Admin Dashboard

For Owners & Managers — Business overview, order management, and driver assignment

3.1 Dashboard Overview

Admins log in using the same POS URL. After login, the system automatically redirects you to the Admin Dashboard — no branch selection needed.

ORDER #	CUSTOMER	BRANCH	AMOUNT	STATUS
#00142	Maria Santos	QC Branch	₱1,360	PENDING
#00141	Juan dela Cruz	Makati	₱1,120	CONFIRMED

4 Stat Cards at a Glance

- **Orders Today** — total orders across all branches
- **Revenue Today** — total revenue from all branches
- **Active Orders** — orders currently being processed
- **Branches** — number of active branches

Admin Navigation

- **Dashboard** — overview & recent activity
- **Orders** — full order list, assign drivers
- **Services** — manage pricing per branch
- **Drivers** — manage driver accounts
- **Customers** — view customer records
- **Branches** — manage branch locations
- **Analytics** — revenue charts & performance

3.2 Managing Orders & Assigning Drivers

From the **Admin Orders** page, you can see all orders across every branch and assign drivers for delivery.

Viewing Orders

- Go to **Orders** in the sidebar
- Orders from all branches are shown in one list
- Filter by status: All, Pending, Confirmed, Processing, Ready, Completed, Cancelled
- Click any order row to open the Order Detail Panel on the right
- Order Detail shows: all items, customer info, branch, status history, and driver assignment

Assigning a Driver

1 Open the Order Detail

Click an order from the Orders list. The detail panel opens on the right side.

2 Find the "Assign Driver" Button

This button appears for orders with status: **CONFIRMED**, **PROCESSING**, **READY**, or **OUT FOR DELIVERY**.

3 Select a Driver from the Dropdown

A dropdown shows drivers available at the branch. Select the driver.

4 Tap "Assign"

The order is now assigned. The driver will see it on their Driver App with a **NEW** badge.

SCREEN · ORDER DETAIL WITH DRIVER ASSIGNMENT

Filter Orders

All · Pending · Confirmed · Processing · Ready · Completed · Cancelled

Analytics

Revenue charts, order counts, and branch performance reports

PART 4

Customer Website

auntsallyslaundry.com — How customers book, track orders, and view services

4.1 Overview & Features

— SCREEN · AUNTSALLYSLAUNDRY.COM

How Customers Book Online

- Go to auntsallyslaundry.com and **Book Now**
- Fill in: Name, Phone Number, Address (with map pin)
- Select a service, add notes, choose preferred pickup time
- Submit — order appears in the POS Order Queue as **PENDING**

Order Tracking for Customers

- Customer taps **Track Order** on the website
- Enters their order number (e.g., #ORD-00142)
- Sees the current status of their laundry in real-time
- Statuses match what you see in the POS: Pending → Completed
